

## PRODUCT DESCRIPTION

PLC-controlled automatic machine for edging, ironing, cutting to the set size and stacking of classic trouser pocket linings. It is a prerequisite that the substrate to be processed is roll-fed.

## USE

Preparing back pockets

## EDGER WIDTH

Min.160 max 210 mm

## VOLTAGE

220V monophase

## ELECTRIC POWER

800W x 2

## FREQUENCY

50 Hz

## MAX TEMPERATURE

160° C

## COMPRESSED AIR SUPPLY

8 bar

## AIR CONSUMPTION PER CYCLE

3,5 N/l

## WORKING PRESSURE

6 bar

## ON-BOARD INSTRUMENTATION

PLC with touch screen

## FABRIC CUTTING MODE

guillotine blade

## IRONING SPEED

Adjustable

## MAX PRODUCTION

400 pz/h

## STANDARD EQUIPMENT

4 feet

## CERTIFICATION

CE

## WARRANTY DURATION

12 months

## MACHINE DIMENSIONS

L150xP78xH135 cm

## NET WEIGHT

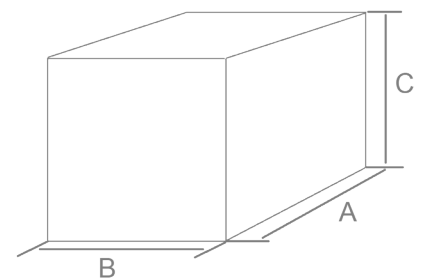

180 kg

## STANDARD PACKAGING TYPE

Wooden crate

## PACKAGING SIZE

A= 170 cm B = 100 cm C= 155 cm

## GROSS WEIGHT

Kg 250
